UNITED STATES

- Access and use of the Wi-Fi service in the United States is provided by Zara USA, Inc., Massimo Dutti USA, Inc, and ITX USA, LLC d/b/a Bershka.

- Data Controller Identification and Data Sharing:** The data controller responsible for processing your personal information is the company belonging to the Inditex Group that manages the physical store whose Wi-Fi network you have connected to (the “Data Controller”). A detailed list of the companies responsible for each store, including their contact details, can be found [here](https://static.zara.net/static/pdfs/UK/openwifi_terms/OpenWifi-Companies.pdf). Authentication occurs centrally through our data processor. No personal data is shared between the Inditex entities. Only the processor verifies the digital certificate installed on your device, and the local store’s internet provider then grants access. The managing Inditex entity of each store operates as independent Data Controllers and thus no data is shared between controllers. Additionally, third-party service providers (such as technology and infrastructure providers) may have access to your personal information on behalf of the service provider companies solely to support, develop, and maintain the Wi-Fi service on behalf of the relevant controller. The categories of data collected, the scope of data sharing, the purpose of sharing, and the legal basis for processing are further detailed in Section 6 (“Privacy Policy”) of these General Terms and Conditions. In the event that the Inditex Group entity and/or service providers provide a username and password for the use of Wi-Fi service, Users acknowledge and agree that they are responsible for properly safeguarding and keeping confidential this username and password, and to use this username and password only for their own use. Users understand and agree that the sharing of the Wi-Fi service with another party breaches these Terms and Conditions and/or the Specific Conditions for the United States and entitles the Inditex Group entity and/or service providers to terminate such service.
- Automatic Wi-Fi Connection and Right to Opt Out:** By clicking “Accept,” accepting these Terms and Conditions, and installing the digital certificate on your Device, you provide explicit, affirmative consent to (i) the collection and use of your personal information for the purposes described in the Terms and Conditions, (ii) automatic Wi-Fi connection functionality across all participating Store locations globally, and (iii) the sharing of your information with other Inditex entities as required to provide this functionality. This means your Device will automatically connect to the Wi-Fi network whenever it is within range of any participating Store, and you acknowledge that this automatic connection involves the ongoing collection of certain device-specific identifiers (such as MAC address, IP address, authentication logs, and location-related connection data) necessary to securely provide the service. A persistent in-connection banner or notice will display each time your Device connects, containing a link to the global Terms and Conditions. You retain the right to opt out of the automatic Wi-Fi connection at any time by removing the installed digital certificate from your Device or by using the opt-out method described in Section 6. Once you opt-out, automatic connection will no longer be enabled for your Device.
- State Privacy Rights:** In addition to the rights set forth in the General Terms and Conditions, residents from the U.S. states with comprehensive privacy laws have certain additional rights. You can exercise those rights by submitting a request through our [form](#). In the alternative, you can call us at 1-855 635 9272 or email us at privacy.us@zara.com. Those rights are listed below:

If personal information is shared with third parties, you may opt out by contacting us as described in Section 6 ("Privacy Policy").
- **Right to Correct (where applicable):** You may request correction of inaccurate personal information.
- **Right to Non-Discrimination:** You will not be discriminated against for exercising any of your privacy rights.
- **Retention:** Your personal information will be retained only for as long as reasonably necessary to fulfill the purposes described in these Terms and Conditions or as otherwise required by law. Specific retention periods or the criteria used to determine them are described in Section 6.
- **Notice of Changes:** If the Terms and Conditions are updated, you will be notified via email and will be asked to provide renewed consent before automatic connection continues. The persistent banner displayed during Wi-Fi connection will also indicate that changes have been made and will provide an updated link to the revised Terms. Your continued use of this Wi-Fi service confirms your acceptance of any changes; therefore, you should frequently review these Terms and Conditions to understand the terms and conditions that apply to your use. If you disagree with any changes made, we recommend that you not use the Wi-Fi service.
- **Governing Law:** The Terms and Conditions and/or, where appropriate, the Specific Conditions for the United States, are governed by the internal substantive laws of the United States without regard to its conflict of laws principles. Jurisdiction for any claims arising under the Terms and Conditions and/or, where appropriate, the Specific Conditions for the United States shall lie exclusively with the courts of the United States. To the fullest extent permitted by applicable law, no claim under the Terms and Conditions and/or, where appropriate, the Specific Conditions for the United States, may be joined to any other claim, including any legal proceeding involving any other User, and no class action proceedings will be permitted.
